

Temperature at the Waterloo Weather Station January 2005

High/Low Temp: 14.9 °C/-32.3 °C
Average Daily High: -3.3 °C
Average Daily Low: -12.8 °C

The temperature never seemed to be average this month: either above average in the first half or well below average in the second.

Precipitation at the Waterloo Weather Station January 2005

Total precipitation
73.1 mm

We were headed for an above average month of precipitation, but a dry week at the end put the final total just in the top of the average range.
